Rounds

22 - 23

February

3 - 4

Members/Team

Participants shall present their prototypes at the Vellore Campus of the esteemed Vellore Institute of Technology. They shall display their technical prowess and creative flair in a head to head battle for the titles of the top 3 and the best tracks for software and hardware. The winners shall win the bragging rights that their prototype is among the finest in the world. Lucky winners shall also win infusions from visiting Angel Investors and Venture Capitalists.

About VIT

Established in 1984, Vellore Institute of Technology (VIT) is a distinguished symbol of innovation and academic excellence in India. With a rich history of accomplishments, VIT has become a leader among private universities. Its sprawling campus in Vellore, Tamil Nadu, is a hub for learning and innovation. VIT holds an 'A+' grade accreditation from NAAC, reflecting its commitment to quality education and holistic development. Ranked 8th in India by NIRF, VIT excels in Computer Science and Engineering (CSE) with a 7th rank. Its global stature is evident by QS World University Rankings placing it among the top 201-250. VIT is known for innovative teaching, advanced infrastructure, and research focus. Research spans diverse fields, facilitated by modern laboratories and collaborative centers. Partnerships with global institutions enrich the learning experience, fostering a global outlook. VIT's dedication to academic excellence and holistic growth continues to shape students and faculty, making them global contributors in an interconnected world.
